EXPERIENCE

Product Manager

GammaStack

- 04/2025 India
 - Reduced operator go-live time by approximately 88% (from 3 months to 10 days) by streamlining deployment workflows and platform configuration.
 - Built and scaled a multi-tenant white-label platform, onboarding 12 operators in 3 months.
 - Led development of core platform modules including wallet systems, payment integrations, and risk monitoring.
 - Designed scalable system architecture for payments, APIs, and platform infrastructure.
 - Integrated third-party identity verification and fraud detection systems to improve platform security.
 - Delivered platform scale with over 1000 integrations and more than 10 payment gateways across global markets.

Business Analyst Project Manager

Dev IT Pvt. Ltd

- 08/2024 - 03/2025 Jaipur
 - Delivered product and system design for Kaushal Darpan, a Government of Rajasthan digital platform for skill and education management.
 - Translated complex policy and stakeholder requirements into scalable product features and system workflows.
 - Authored BRD, SRS, and UML diagrams, enabling clear alignment between government stakeholders and engineering teams.
 - Improved execution efficiency by streamlining requirement gathering and documentation processes.
 - Acted as a bridge between government authorities and technical teams, ensuring accurate product delivery.

Product Manager

Eglusoft

- 10/2023 - 08/2024 India
 - Led product strategy and roadmap for startup MVP platforms and fintech solutions
 - Delivered products including WrkrsApp (on-demand service marketplace)
 - Created BRDs, PRDs, system workflows, and wireframes guiding development teams
 - Coordinated cross-functional teams across engineering, design, and stakeholders

Business Analyst

Simform Solutions Pvt Ltd

- 03/2023 - 10/2023 India
 - Managed agile product delivery for international hospitality clients including Atlantis Hotel and Palm Jumeirah
 - Conducted requirement analysis and created UML diagrams, system workflows, and product documentation

Business Analyst

StriveMindz Pvt Ltd

- 08/2020 - 01/2023 India
 - Conducted business analysis and requirement documentation for fintech, CRM, and marketplace platforms
 - Produced BRD, SRS, workflow diagrams, and system design documentation
 - Facilitated stakeholder workshops translating business requirements into engineering deliverables

SUMMARY

I am a Product Manager with over 5 years of experience in building scalable digital platforms in diverse sectors such as gaming, fintech, and blockchain. My expertise lies in transforming complex business requirements into effective product strategies and designs. With a strong foundation in platform infrastructure, I am currently pursuing an M.Tech in Data Engineering, enhancing my skills in advanced technology solutions
